

AIN'T IT A GRAND AND GLORIOUS FEELING By BRIGGS

DETECTIVE HIT BY AUTOMOBILE

Several Persons Are Victims of Minor Accidents on Friday Afternoon.

City detective A. C. Varela sustained a badly bruised ankle Friday afternoon at Seventh and Stanton streets, when he was struck by an automobile driven by Thomas J. Hayes, and knocked down. Detective Varela was in company with Capt. J. E. Stowe and detectives Rober and Wood when the accident occurred. Hayes, according to his statement, did not see the officer when he stepped off the sidewalk curbing, and went for some distance before he was able to stop his car.

Reyes Zucerra, 2221 Estrella street, was slightly injured Friday afternoon in the Sheldon hotel building, when his right foot was caught between the freight elevator and the wall. Zucerra was making a delivery in the hotel and had placed a number of boxes on the elevator, which did not permit sufficient space in which to place his foot. He was taken to the emergency hospital and later sent to his home.

Knocked down by an automobile at Second and El Paso streets, Angel Montoya, was taken to the emergency hospital Friday afternoon suffering from a number of minor injuries to the head and body. The identity of the driver of the automobile is not known. Montoya was later taken to his home.

George Mitchell, a soldier in one of the infantry regiments in the El Paso district, was taken to the emergency hospital Friday afternoon from Third and Stanton streets in a semi-conscious

TWO MORE OUT FOR ALDERMAN

L. P. McChesney and Will Hoard Announce Themselves in the Race.

Political waters were muddied a bit today by the announcement of L. P. McChesney and Will Hoard for alderman.

McChesney is an old time resident of El Paso and is engaged in the plumbing business.

Hoard is also an old timer here, having served first on the police department and more recently as city fire marshal under the present city administration.

"We are making the race against Frank Simmons and Bert Semple," said Mr. McChesney today. "If our friends stick with us, we will win, and we promise to give them an honest administration of city affairs."

Mitchell was later removed to the base hospital. The cause of his condition is not known.

MY OFFICE WILL BE OPEN FOR THE PAYMENT OF TAXES FROM SEVEN UNTIL NINE O'CLOCK OF EVENINGS, FROM THE 22ND TO THE 31ST OF JANUARY. TO ACCOMMODATE THOSE WHO CANNOT ATTEND TO SAME IN THE DAYTIME.

WEBER PROTESTS TO SCHOOL BOARD

Trustee Stevens Says German Consul Has a Child in El Paso Schools.

"The land will be used for agricultural purposes, for the benefit of future generations in El Paso," wrote C. M. Stevens, member of the city school board, on Saturday, to Max Weber, German consul in Juarez, replying to Weber's protest against the city donating six acres of land near Washington park to the city schools.

"I do not know that you have title to the land," wrote Mr. Stevens, "and we propose to use it if the city grants us the permission. Furthermore, I am surprised that you object to the use of this land for school purposes, when you have a child attending our schools and paying no tuition."

Mr. Weber claims the land under a Mexican title, having written the school board Friday to this effect and having also published an advertisement in the Herald warning the school board of his claim to the land which the city has donated; also warning the board that he means to hold it responsible for damages if it makes use of the land and he should get title to it.

"Investigation is now being made of the number of children attending the El Paso schools from Juarez, and Sup. Tichie informs me that he has located at least a dozen," said Mr. Stevens.

After reading my interview in the Herald this week, protesting at Juarez children attending our schools, because of the danger from typhus, as well as because of the fact that they are not entitled to the use of our school funds, a man called me on the telephone and promised to furnish me with a list of children daily attending our schools who live in Juarez and whose parents pay no taxes in El Paso. This man urged me to keep up the fight.

"We never pay any attention to Max Weber," said Mayor Tom Lea, when asked about the matter. "The land belongs to the city and the school board may have its use, just as we promised. That's all there is to it. If a man took Max Weber's title to that land and ran all the way to California and back with it, the poor thing would not even be tired when it got back; that's how much title he has. If Weber isn't careful, he'll have a sunburn come up the Rio Grande to guard that land."

HERE IT IS!

NEW DYES AND EXPERT WORK

Wilson-Millican Firm Better Able Than Ever to Back Up Their Motto.

The Wilson-Millican Cleaning Works have just received a shipment of dyes and can now dye almost any color.

This firm has the best dyes in the southwest, who understands all colors, shades of dyeing and in the near future will be equipped for dyeing carpets, rugs and draperies.

Don't forget to save your carpet cleaning, for the new plant, which will be open about February 10.

The latest methods are to be used. Science and chemistry now enable this firm to use such methods as to brighten and bring out the original colors, also the knowledge of colors, texture of fabrics and dyes possessed by the experts of the Wilson-Millican firm enable the concern to render the best work ever produced in El Paso.

With the assistance of the machinery ordered Wilson & Millican will be better able than ever to back the slogan, "The Best Cleaners."

The Wilson-Millican phones are 4100 and 4441. The firm is located at 1100-1102 E. Boulevard.—Adv.

WILL MAKE SUBSTITUTE FOR GASOLINE CHEAPLY

There has been organized in Natal, South Africa, a company under the title of South African Natalite Motor Spirit company, says a consular report. It has a capital of \$375,000, and it is expected to build a complete plant, including all the necessary buildings required to make in the aggregate 2,000,000 gallons per day. The recently rising prices of gasoline are doubtless what have led to these efforts to make a distillate at a sufficiently low cost to become a direct competitor of gasoline.

Experiments were made in Natal with a 22 horse power car weighing some 2500 pounds. The car was tested over several routes, the total distance

covered being slightly more than 500 miles. The roads were said to have been heavy during two days and fine during the rest of the time. In this case the amount of this new motor fluid or spirit used was 30.59 gallons or an average of 16.4 miles per gallon. The engine on all occasions started easily, whether cold or warm. The valve caps and valve heads were found to be very clean after the trial. The rest of the engine was not dismantled.

WAR HITS AUTOS IN PORTUGAL

Statistics show that the automobile trade in Lisbon, Portugal, was hit hard by the war and the well known European makes which previously had a monopoly of this market have almost disappeared, says a consular report. American cars have the market to themselves.

CLEVELAND LIMITS THE OPERATION OF TRAILERS

The proposed new traffic law now before the city council of Cleveland, Ohio, prohibits the use of more than one trailer in that city. In addition, when a trailer attached to a truck is loaded with more than 100 pounds an extra man must accompany the driver. In ascending a hill of more than five percent grade the measure requires that the second man must be on the trailer. Trailers must be equipped with suitable brakes and safety chains. Probably the most objectionable feature to the truckmen is the one which bars from the streets any trailer with steel tires that with its load has a weight in excess of 120 pounds per inch of tire.

'PERFECT SATISFACTION'

That's what the Empire Bottling Works have to say about Republic Trucks. We don't ask you to take our or any person's word for it. Read the letter of Manager Gardner.
